

Perennials in Stock Oct 16, 2023

This is our list of perennials that we have in stock on the morning of the date listed above. Most of our growers won't be shipping again until April 2024. If you are after any perennials that are not on this list then please email us at orders@makeitgreen.ca and we'll see if we can find the plants you are after. At this time of year we will be closed on Tuesdays, Wednesdays and Thursdays.

This will be our last perennial update for the year and includes actual inventory. Please email us at info@makeitgreen.ca if you have questions about current stock levels.

Please consider our Make It Green card which can save you 10% on your purchases of plants and other products for a year. The card costs \$35 and makes sense if you are planning to spend more than \$350 on product at our store during the next year.

All of our perennials are on sale. The price you will pay is 40% less than the price indicated below

Plant sizes:

Pot Size is given in width or volume. The volume measurements are always overstated by 30%. This has to do with pot sizes shrinking in the 70's due to "shrinkflation" (same as happened to chocolate bars, chips, etc.).

Horticulturally its fine - there is enough room in a 1 gallon/15 centimeter pot to grow a typical two year old perennial. 8" pots are in fact a true one gallon pot. Perennials in 2 gallon/20cm pots (more volume than 8") are typically 3 years old. If a plant takes longer to grow to a size that fits the pot then it costs more money.

Please consider our Make It Green card which can save you 10% on your purchases of plants and other products for a year. The cost is \$35 and makes sense if you are planning on spending more than \$350 on product at our store during the next year.
