

Make It Green Plant List

The list that follows is complete as of Mar 7, 2011. **This list is not our plant search (please click on the Plant Search button if that's what you are after).** If you don't see an item on the list it doesn't mean that we can't get it. Many items are easy to order in and we receive new stock several times a week in spring. Items that we are bringing in for our in-house trials this year likely won't appear in the list. We have access to at least as many varieties as we carry but we are limited by space (even with 6 acres) and demand (just how many varieties of Yellow Potentilla should we stock?). Rose (300 more cultivars available), Clematis (150 more cultivars available), Lilac (50), Butterfly Bush (15), Rose of Sharon (30), Japanese Maple (125), Red Maple (10), False Cypress (20), Hydrangea (25), Rhododendron (75), Pine (25), Spruce (45) and Fir (15) are just some of the types of plants where we only stock a portion of what is available to us.
